## Ohio Republican Convention Thrown In Turmoil By Unsuccessful Effort.

# PLATFORM STANDS BY PROTECTION

## Both President Roosevelt And Senator Foraker Are Indorsed--Thayer For Governor Of Connecticut.

[BY ASSOCIATED PRESS.]  
Dayton, Ohio, Sept. 12.—When the republican state convention opened here today a member from Cuyahoga county suddenly sprang to the floor and moved that it be the sense of the convention that Senator Dick be requested to either resign or decline to act as chairman of the state executive committee. Congressman Burton vigorously supported the motion, while Senator Foraker opposed it. The convention was in a tumult and the motion was lost.

**Platform Adopted**  
The Dayton platform declares that the republican party, in complete control of national affairs, has lifted the country from the deepest financial depression to unexampled prosperity, and gives a list of the things accomplished. The republican policy of protection, it is announced, must be sacredly maintained, but eventual correction of certain schedules along protective lines must be made. The platform approves and indorses Roosevelt's administration of public affairs and most heartily indorses Senators Foraker and Dick.

# QUADRENNIAL MEET OF CANADA 'M. E. S.'

General Conference of Society Attracts Distinguished Churchmen to Montreal.  
Montreal, Que., Sept. 12.—The General Conference, the supreme governing body of the Methodist church in Canada, opened its quadrennial sessions in Montreal today, after an absence of sixteen years from this city. The gathering, convened in St. James church with the Rev. Albert Carman, D. D., General Superintendent, occupying the chair. The delegates were in their places and a number of spectators occupied the rear of the auditorium and the galleries. A large number of newspaper men, both of the secular and religious press, were at the tables below the rostrum. The delegates present were several hundred in number and among them were many ministers and laymen of wide prominence. They came from Nova Scotia, New Brunswick and Prince Edward Island, from British Columbia and Alberta and from all the intervening provinces. The gathering as a whole was one of the most distinguished ever assembled in Montreal.  
The initial sessions were given over to the work of organization and to routine business of a preliminary character. Owing to the large number and unusual importance of the matters on the agenda the conference is likely to remain in session ten days or longer. Union with the Congregational and Presbyterian denominations will again be one of the great issues before the conference. The proposed constitution for the Methodist Church of Japan is another matter of importance to be discussed and acted upon. The publishing, educational and missionary interests of the church will, as usual, occupy much of the time of the conference.  
With the exception of the General Superintendent, who was elected for eight years at the Winnipeg conference, all of the officers of the General Conference are to come up for election. Chief interest centers in the choice of a new editor for the Christian Guardian, and the appointment of a new associate secretary of missions.

# OLD DEFENDERS' DAY BALTIMORE HOMING

Patriotic Day of Week Festival—Anniversary of Occasion for "The Star Spangled Banner."  
[SPECIAL TO THE GAZETTE.]  
Baltimore, Md., Sept. 12.—Business was largely suspended in Baltimore today while the people devoted themselves to the celebration of "Old Defenders' Day." What Patriots' Day is to New England, San Jacinto Day to Texas and Admission Day to the people of California is "Old Defenders' Day" to the residents of Baltimore and vicinity. It was on this date in 1814 that the British made an unsuccessful attack on Baltimore, where General Smith was in command. General Ross, with 8,000 British troops, was pressing forward when he was met by General Stricker. A slight skirmish ensued, in which General Ross was killed. He was succeeded in command by Col. Brooks. A battle then commenced, which lasted an hour and a quarter, when the Americans fell back toward the city. Both parties slept on their arms that night. On the following morning the British advanced as if to attack the city. In the meantime a bombardment had been kept upon the fort, whose garrison made a gallant defense. On the morning of the 14th the British reembarked and silently withdrew from the city. It was the defense of the fort by the little band under Major Armstrong that led Francis Scott Key to compose "The Star Spangled Banner."

# EMBRYO ADMIRALS GIVEN SHEEPSKINS

First Section of 1907 Class at Annapolis Graduated Today—Bonaparte Present.  
[SPECIAL TO THE GAZETTE.]  
Annapolis, Md., Sept. 12.—The first section of the class of 1907 was graduated from the Naval Academy today. The other sections will be graduated in February and June, respectively, of next year. This plan of graduating the midshipmen in sections according to their merit is a new one and is necessary because of the lack of officers in the navy and the urgent demand for men at sea.  
The large crowd assembled today from every part of the United States was proof sufficient of the great interest which the navy inspires. The crowd of visitors was unusually large, and this despite the fact that the customary social functions were dispensed with. The exercises took place in the chapel. Secretary Bonaparte delivered an address and presented the diplomas to the graduates. The class numbered eighty-seven midshipmen. The honor man of the class was Naval Cadet G. L. Caskey of Michigan.

# SPANG HEIRS HAVE MILLIONS IN SIGHT

German Progenitor of Two Hundred Americans Left Estate of About \$34,000,000.  
[SPECIAL TO THE GAZETTE.]  
Reading, Pa., Sept. 12.—The Spang heirs, of whom there are several hundred scattered over the country, are eagerly awaiting news from Germany, where the famous case in which they are interested comes up in court for trial today. For a number of years the organization of Spang heirs, of whom more than 200 reside in this part of Pennsylvania, has been working to recover the estate and fortune left by their progenitor, John George Spang, and which is estimated to be worth \$34,000,000. The fortune is in the possession of Prince von Kuyppkausen, against whom court proceedings have been begun at the expense of the heirs' association. According to the attorneys representing the heirs the estate consists of several castles, thousands of acres of timber land, copper mines and cash deposited in Paris banks.

# LYMAN AND LENA IN WAR OVER GARTERS

Heirloom Left by Deceased Mother Has Made Bitter Enemies of Brother and Sister.  
[SPECIAL TO THE GAZETTE.]  
Boston, Mass., Sept. 12.—For six years Lyman and Lena Raymond, brother and sister, of Pittsfield, have been living in bitter enmity, the cause of which was a pair of red silk garters. It was not the intrinsic value of these useful accessories of attire that originated the feud, but the fact that they had belonged to the "littlants" mother, who died in 1900. Neither Lyman or Lena would relinquish their claim to the full and undisputed possession of the interesting heirloom, and at last feeling ran so high that the assistance of the law was invoked to settle the matter once for all. The administrator of the law, with true Solomonian wisdom, has cut the knot by awarding one garter to Lyman and one to Lena—which, however, in each case will leave one loose stocking.

# TWO REUNIONS OF TWO WAR VETERANS

Mississippi Confederates Meet at Jackson and Missouri Mexican Fighters at Chillicothe.  
[SPECIAL TO THE GAZETTE.]  
Jackson, Miss., Sept. 12.—The annual reunion of the Mississippi division of the United Confederate Veterans opened in Jackson today with a large representation of delegates from the camps throughout the state. It is conceded that the reunion will be one of the most successful ever held by the state organization. Never in the history of this city have such elaborate preparations been made for this occasion. The praise of Commander Lowry and other prominent visitors attests the success of the efforts of the local committees. The reunion will be in session until Friday. The erection of a memorial to Southern women and building of monuments to Confederate soldiers at every county seat in the states is the most important subject for discussion. Vicksburg is making a strong bid for the reunion of next year.  
Chillicothe, Mo., Sept. 12.—Missouri veterans of the Mexican war gathered here today for what must be nearly the last of their state reunions. There are but a handful of the veterans left, and each year sees the number reduced. The present meeting, which is the twenty-eighth annual reunion of the Missouri association, will last two days. The association has little business to transact, and the gathering is entirely in the nature of a reunion. The president General Odon Ginton of Columbia.

[SPECIAL TO THE GAZETTE.]  
Milwaukee, Wis., Sept. 12.—"The legislature in framing the primary election law did not expect candidates who should constitute the 'platform' convention to discuss national issues," said Senator Hatten-Davidson of New London today. "Consequently," he continued, "it would not be proper for the convention to take any action whatever with regard to either of the United States senators of Wisconsin or with regard to the congressmen. Railroad Company Engaged in Unusual Proceeding on River Street in View of City Council's Order.  
At the last meeting of the city council the railroad tracks situated in front of the fire station on North River street were ordered removed and the chief of the fire department was instructed to enforce the order, if necessary. The tracks were taken up and today the railroad company has a crew of six men quietly laying them back in place again. As the council did not expressly stipulate that the rails were not to be put back, the officials seem to think their hands are bound. At least they are watching the proceedings without any attempt to interfere. No one could be located who was able to say on what authority the unusual action was being taken.

# MURDERED FAMILY FOR THEIR ESTATE

Unless Pardon is Granted Californian Will Die For Slaying of His Own Kin.  
[SPECIAL TO THE GAZETTE.]  
San Francisco, Cal., Sept. 12.—Unless Governor Pardee is moved to interfere by the strong pleas of clemency, Adolph Weber will suffer the death penalty at Folsom today for one of the most sensational crimes that has ever stirred California.  
In the spring of 1904 Weber killed his mother, father, sister and brother. He shot them at night in their home at Auburn and then set fire to the house to destroy the evidence of his crime. At the time he was just 20 years of age. His motive seems to have been the annihilation of his family, which might receive their estate. Subsequently he did receive the entire estate, which was valued at about \$60,000. Weber was also charged with the robbery of the Placer County bank. Gold stolen from that institution was found buried on the Weber farm.

## THE LEGISLATURE

The recent primary election has played havoc with the state legislature. Oldtimers will be missed, new faces will appear and a new arrangement of cliques will be in order. The prospective make-up of the two houses of state government will be interesting to note.

The success of James A. Frear in his race for the nomination for secretary of state will make it necessary for him to resign as senator. W. H. Hatten of New London, who has been one of the most influential members of the upper house, will not return. O. W. Johnson of Racine was not re-nominated. A. L. Kreutzer of Wausau was not a candidate for another term. James J. McGillicuddy of Black River Falls, one of the veterans of the senate, will not be seen in his accustomed seat next winter. Barney Eaton will remain away. Ernest Merton of Waukesha, the leader of the democratic minority, will be conspicuous by his absence. William C. North of Fox Lake, another democratic member, will also be absent. Cassius C. Rogers of Milwaukee will take no part in the deliberations of the upper house at the next session. E. E. Stevens of Oshkosh will be absent. H. C. Wipperfurth of Grand Rapids will not lend his genial good nature and mature judgment to the councils of the senators, and the hale and hearty George Wyllie of Monmouth will no longer fill the chamber with his resounding laughter. The senators who will return if they are re-elected are Zedoc P. Beach of Whitewater, Harlan P. Bird of Wausau, J. H. Stont of Menomonie, George B. Hudall of Superior, Harry C. Martin of Darling-ton and Samuel W. Randolph of Manitowish, while Jacob Rummel, A. W. Sanborn, of Ashland, C. H. Smith of Markesan, A. M. Stondahl of Madison, J. M. Whitehead of Janesville, F. M. Wilcox of Appleton, Julius Roehr of Milwaukee, George W. Wolff of Rhinelander, J. A. Wright of Merrill, E. E. Burns of Platteville, Theodore C. Froemming of Milwaukee, Henry Hagemeister of Green Bay, Oliver G. Manson of Vilroqua, J. H. Noble of Eau Claire, Thomas M. M. La Crosse have still two years to serve.

In the assembly the change will be even more noticeable. Most all of the old warhorses will be gone. The lower house will be filled with new blood of independent tendencies owing allegiance to no clique or faction. Wallace W. Andrew of Superior, the oldest in point of service, and the most popular member of the assembly, and one who if he started out to turn a trick, usually succeeded, will not be there next winter. George F. Beedle of Embarras will be in the insurance commissioner's office, but not the assembly chamber. J. S. Blecher of Milwaukee, who gave his name to one of the hardest fought bills in the last session, will not return. W. S. Braddock of Mather, one of the most modest but hardest working members, will be absent. F. J. Bohrl of Fountain City will not be there. "Hal" Brooks of Tomahawk, the bitterest of the stalwarts, and Grad Miller of Ripon, another of his kind, will be gone. A. H. Dahl of Westby, whose committee work was most effective in the last two sessions, will perhaps be down in the treasurer's office instead of his seat in the assembly. John J. Durland of La Crosse will not go to Madison. John A. Fridt of Winnebago will be in the upper house but not in the assembly any more. Armand P. Jerdee Polk, whose opposition to the "replica" made him a marked man at the last session, will not return to the councils of the fathers. Henry Johnson of Oconto will stay at home. O. G. Kinney of Colfax, who tried for the nomination for congress will not return to the assembly.

Speaker Lenroot of Superior, who was the leading spirit of the lower house for two sessions, will remain in his home in Superior. George E. Page, who was the floor leader of the stalwarts, will be in the upper house, and his voice will not be heard in the assembly halls. Dr. J. W. Powell of Fond du Lac, who was always a faithful follower of his chief, La Follette, will not be there. Charles Reynolds of Sturgeon Bay will be replaced by his brother, Roy Smelker, whose speeches were a delight to the galleries, will speak no more. Jonas Swenhold of Shawano is now chief game warden and will not be at his desk when the roll is called.

"Dick" Tarrell of Darlington, Parson L. L. Thayer of Bloomer, Ernst Warner of Madison, and Oscar Thiele and Fred Westphal of Milwaukee will be missed by those who learned to hate them.

Roderick Ainsworth of Waukesha will be back and Herman L. Ekern of Trempealeau. Edward W. Le Roy of Marinette will serve his third term and perhaps be speaker of the house. Peter A. Cleary of Elroy will lend his democratic advice and counsels to his republican colleagues in vain; Duncan McGregor of Platteville, the Nestor of the assembly, and Piny Norcross, the genial aristocrat from Janesville, will undoubtedly return, while Barney Potter of West Bend, the noblest Roman of them all in democracy's ranks, will be there. "Tom" Ramsey will amply fill his Jeffersonian seat and the socialists will perhaps again return with a slightly different personnel of their delegations.

The Cuban rebellion promises to be a bigger affair than was first thought of. Instead of slinging "There will be a hot time" the soldiers of the little republic are singing "In the good old summer time"—just a difference in tune though; they are fighting just the same.

If Mr. Connor sits down now and lets La Follette name the platform he is to run on the voters of the state have been badly fooled in the man they nominated for the second place on the ticket. But he won't.

From all accounts Wisconsin is having a state fair this year that is pleasing everybody who attends. This speaks well for both management and exhibitors. Janesville firms have exhibits there that are most interesting.

Foreigners seeking admission to the United States should be questioned as to their fitness to hold office. Read the names of some of the candidates throughout the state.

The track question on River street appears to bother many property owners considerably. Time should be taken to consider the matter before any new tracks are placed.

The ancient Romans missed one beautiful torture for Christians by not having known about the parachute drop and sure death for the daring "dropper."

If all the counties had as hard a time to count the primary ballots as old Rock county no wonder no one knows who is nominated yet.

Milwaukee is a shut place today—state fair, La Follette factional conference, and Governor Davidson meeting his host of friends.

Who would have thought that Gilbert would have swept the state so completely for attorney general? 20,000 majority.

Chicago had its packing scandal and then it stopped until "Fish" Murray got in his dastardly work on canned goods.

Senator Long out at Beloit, Kansas, said some things about La Follette that do not read well in cold print.

Janesville streets resemble a Chinese puzzle. Any more new grades will make it even more confusing.

Dahl appears to have won out in the state treasurer's fight. Mr. Kempf is defeated.

## THE PRESIDENT AND THE TARIFF

No part of President Roosevelt's letter to Representative Watson of Indiana will be read with keener interest than that in which he deals, at considerable length, with the tariff issue.

This is an issue with which President Roosevelt's immediate predecessor was closely identified during the whole of his political career. Mr. McKinley was for years the foremost advocate, in and out of congress, of the protective policy. At the beginning of his second term, however, he began to give signs of a change of position in regard to the subject, and in his last public address, the one he delivered at Buffalo the day before he was shot, he delivered himself in a forcible manner of broad and liberal views, favoring not indeed the abandonment of the protective principle, but of putting the tariff system more in line with the expanding foreign commerce of the country.

Mr. Roosevelt has had other issues to deal with, issues which were closer to his heart than the tariff. That question he has practically left alone. It has been known that personally he was in favor of what he has called a "readjustment" of the tariff, using that word in preference to revision, although they practically mean the same thing. It has been known that the President entertained broad views in regard to the tariff question, and it has been expected that at some time or other he would deliver himself publicly, and with his usual force, in favor of such a revision of the tariff as would put it more in accord with present-day conditions of the country.

In other words, he has seemed to occupy a position midway between the "stand-patters," who wanted nothing done in regard to the tariff, and those republicans who favor radical revision of the tariff.

But President Roosevelt has never regarded the tariff question as one involving moral issues. He has looked upon the question as one of expediency of policy. Far more important than the question whether there should be a reduction of 10 per cent, 15 per cent or 25 per cent in the duties on imported merchandise, President Roosevelt has regarded the great question of the government regulation of the corporations. He drew a broad line between the tariff question and the corporation question. The latter, he believed, involved a distinct moral issue and one which involved the interests and destinies of the American people for generations yet to come.

On the tariff question he was unwilling to part company with his party. On the corporation question he was determined to do so, if his party would not follow him.

His party has followed him in the carrying out of his great policy of publicity, of government regulation and of fair play in the conduct of great business. The House of Representatives has in a notable degree upheld the hands of the President. In his letter to Representative Watson the President makes full and adequate acknowledgment of the support which the house has given him, and it would appear that in return for this support the President has been willing to give what is substantially an endorsement of the "Speaker Cannon policy" in regard to the tariff question. The President declares unequivocally for the protective tariff. More than that, he holds that it would be foolish to put in jeopardy our phenomenal industrial prosperity by securing here and there a small benefit from a tariff readjustment at the cost of general business depression. He holds that a general revision of the rates and schedules should be undertaken only when it was apparent to the sober business sense of the people that a revision would do more good than harm. This is substantially the present "stand-pat" policy and it is a small advance upon the old "let it entirely alone" program.

It does not necessarily mean that the republican party will not deal with the tariff, but it does mean the postponement of any general readjustment until there is such a public demand for readjustment that congress cannot evade the duty. The democratic party have now an opportunity to make tariff revision their leading party issue, but the democratic party is by no means in unison on the subject, and it is a question how far it will be willing to go. The President's letter will immensely strengthen the republican party in the coming campaign. His stand on the tariff question, moreover, will undoubtedly please the great mass of business men, who as a rule dread tariff legislation as disturbing to the serenity and threatening to the activity of business.

Nevertheless, the question of a more equitable adjustment of the tariff duties cannot be indefinitely postponed.

Evansville held a county fair last week that everyone has words of praise for. Why can not Janesville have a similar fair next year that people will talk about? In the column known as "Forty Years Ago" we read that the people were just preparing for the county fair at this time and the papers of next week will tell what a success it was.

Bushong, who used to be backstop for the old Mutuals, saved a young woman's life in the east last Sunday at the risk of his own. Bushong is now a dentist with a large practice.

The Cuban rebellion promises to be a bigger affair than was first thought of. Instead of slinging "There will be a hot time" the soldiers of the little republic are singing "In the good old summer time"—just a difference in tune though; they are fighting just the same.

## PRESS COMMENT

No Good for Birds

Oshkosh Northwestern: This is certainly fine weather—but not for ducks.

No Recount Necessary

Marinette Eagle-Star: A recount will not be necessary in Governor Davidson's case. It was too near unanimous.

Up Against Natural Law

Milwaukee Sentinel: Mr. La Follette would find it very difficult to check the natural process of republican reconciliation in this state.

Reprocessed Waltz Not Wanted

Chicago Tribune: A dancing master is trying to reprocess the waltz by abolishing the hugging feature. He is meeting with poor encouragement.

Heaping on the Humiliation

Chicago Inter-Ocean: The English will, of course, make it harder for us by claiming that Harvard represents everything that is best in American athletics.

Never Ranker

Did It

Green Bay Gazette: La Follette was certainly right when years ago he assured the people that a primary election law would free the people from ring rule. It has.

With the Good Housewives

Rockford Register-Gazette: When one woman calls on another these days you can bet she isn't in the house long before she is invited to look at the new preserves and canned fruit.

What'll He Do to a Dem?

Eau Claire Leader: If Governor Davidson can get 20,000 or 30,000 running against a republican senator, what in the name of all the voters will he do to a mere democrat?

Must Have the Interurban

Madison Journal: Mr. Montgomery is not the only pebble on the interurban beach. Outside capital is taking considerable interest. But no matter who builds it, "we must have the interurban."

Thinks Bryan Listened to Dunne

St. Louis Globe-Democrat: The blunder committed by Col. Bryan in advocating government ownership of railroads is easily explained. He has been taking counsel of Mayor Dunne, the Dowie of western democracy.

## ROCK COUNTY AT THE STATE FAIR

Exhibit of Fruit and Vegetables is Attracting Attention—A 107 Pound Pumpkin.

Rock county did not figure extensively in the award of prizes for goats, sheep, swine, winter wheat, oats, beans, corn, needlework, etc., at the state fair yesterday but will doubtless have its inning today when the Clydesdales and coaches are inspected by the judges. Eli Crall & son of Evansville secured second premium in several classes: of Duroc Jersey swine, L. E. Benedict of Beloit secured second premium for late sweet corn. The Milwaukee Sentinel this morning published a large portrait and a lengthy biographical sketch of William H. Tripp of the town of Rock who is a visitor at the exposition; also the following commentary on exhibits from this neighborhood.

"Rock county has an interesting exhibit of fruit and vegetables. Here are a 77-pound squash and a 107 pound pumpkin. A feature which creates a great deal of amusement is a pair of cucumbers grown together. They bear the label 'Rock County Twins' and on one is a card bearing the words 'staiwart', on the other words 'half breed'.

The attendance yesterday was 11,080. Today is Wisconsin day and 26,401 visitors will be needed to equal last year's record.

## HEFFERNAN A. O. H. STATE SECRETARY

Janesville Man Elected to Important Post—Milwaukee Nearly Lost Locomotive Firemen Convention.

J. P. Heffernan of Janesville was elected secretary of the state branch of the Ancient Order of Hibernians at the closing session in Milwaukee yesterday. M. S. Sheridan of Milwaukee was named president; G. B. McCall of Chippewa Falls, vice president; and J. R. Powers of Racine, treasurer. The next state convention will be held in Ashland during the summer of 1908. For a short time yesterday it was feared that the biennial national convention of the Brotherhood of Locomotive Firemen, which J. J. Russell of this city is attending as delegate from Bower City Lodge No. 385, would be taken away from Milwaukee. The Citizens' Business League of the Cream City failed to provide a free and adequate convention hall as promised in the invitation two years ago.

## LEAGUE OF AMERICAN MUNICIPALITIES IS WITHOUT NEEDED CASH

Convention Which Local Aldermen and Mayor Are Planning to Attend May Not Be Held.

The mayor and the five hold-over aldermen, whom the council voted to send to Chicago at the expense of the city in order that they might attend the annual convention of the League of American Municipalities, may be cheated out of their trip. The committee in charge of the meeting has but fifteen days in which to raise the \$15,000 necessary for holding the session, and there is but \$2,500 in sight. This money is promised from the Chicago banks by President Forgan of the First National.

## THREE IN LIMBO HAD THE TREMENS

Two Were Given Jail Sentences—Third Ran Down Street in Robe De Nuit Last Night.

Three prisoners at the city lock-up over night were suffering with the delirium tremens. Two, Patrick Delaney and Lewis O'Rourke, were brought into municipal court this morning and Judge Field prescribed five days each in the county jail. They were taken there in the police patrol and Marshal Appleby found it necessary to have an officer for each man, both being violent and raving. A third, Dave Cunningham, a West Milwaukee street baker, is still in the calaboose. It is possible that he will not only be charged with drunk and disorderly conduct but with disturbing the peace. The grounds for this accusation are the scene he created on Milwaukee street at eleven o'clock last night. He rose suddenly from his bed and draped only in some light underwear dashed down the street at a terrific pace. Many people were abroad, a crowd being enroute home from a literary entertainment. The man was taken in charge by Officers Brown and Mason. Today, though still affected, he is regaining his normal condition. Many delicacies, brought by his family, were served at his board.

## CONSIDERATION OF NEW HOSPITAL PLANS POSTPONED TO TUESDAY EVENING NEXT

Several of the Physicians Unable to Attend Meeting Called at Dr. Buckmaster's Office Last Night.

Owing to a misunderstanding regarding the hour a number of the physicians expected at the meeting called at Dr. S. B. Buckmaster's office last evening for the purpose of taking under advisement the new hospital proposition, were unable to attend and the session was adjourned until next Tuesday evening at eight o'clock at the same place. The plans contemplate a modern hospital managed by the Sisters of Mercy with accommodations for one hundred patients.

## NEARLY ENGULFED IN SPAULDING POND

Dr. R. L. Brown, Bert Van Houter, and a Horse Had Harrowing Experience Yesterday.

Spaulding's Pond, expanded by the recent rain so as to take in the adjoining turnpike, clutched Dr. R. L. Brown and Bert Van Houter in its angry depths yesterday and they were glad to escape with their lives. According to reports, they mistook a big washout for two or three inches of water and the horse plunged nearly to his ears, overturning the buggy and pitching its occupants into the noisome pool. It was necessary to dive for the medicine case and the poor equine was rescued with considerable difficulty. The two men were on their way to Frank Story's place and an attempted shortcut was the cause of their undoing. They returned home last evening in a very wet and bedraggled condition.

## 375 STUDENTS IN THE HIGH SCHOOL

Larger Attendance This Year Than for Several Past—Complete Enrollment Soon.

Attendance at the Janesville high school is larger this year than for many past. There are just three hundred and seventy-five pupils enrolled now and no doubt this number will increase as the farm work is completed and when the second term in December arrives. This number is larger than the total enrollment for last year—that is, the number of different students who attended, some leaving before the end of the year and others entering after the opening. A re-enrollment list will be made out at the end of the first month of school and then accurate figures as to the number taking different courses and in the different classes can be secured.

## BROTHERHOODS MAY BECOME ONE UNION

Trainmen and Firemen Talking of Uniting—Matter Brought Before Milwaukee Convention.

Janesville members of both the Brotherhood of Railway Trainmen and the Brotherhood of Locomotive Firemen will be deeply interested in one matter that is being brought by leaders of both before the firemen now in national annual convention at Milwaukee. This is the question of the two orders into one mammoth labor organization. Both are among the strongest societies in the country. The Brotherhood of Locomotive Firemen has a membership of more than 60,000 men. The Brotherhood of Railway Trainmen has a membership of 90,000 men. If the treasures of the two organizations were combined at the present time there would be on hand a fund, it is said, of nearly \$2,000,000.

## MRS. SUSAN RUSSELL NINETY YEARS OLD

Loving Friends Gathered at Her Home to Celebrate Anniversary—Enjoys Good Health.

At her home, corner of Milwaukee and Division streets, Mrs. Susan Russell, who came to this section of the state before the railroads were built and when it was a sparsely settled wilderness, celebrated her ninetieth birthday anniversary. There were numerous callers during the day and many of them brought floral tokens to the aged lady to whom the years have been kind and who is still in good health and able to read the newspapers without glasses. While a number of guests were assembled at the banquet table last evening she sang the sacred hymn, "Praise God from Whom All Blessings Flow." Mrs. Russell was born in Frederick, Maryland, and came west in 1840. There were at that time only a few frame buildings in the county and the Russell home erected on East Milwaukee street was regarded as one of the most commodious and pretentious structures of the time.

Mr. K. followed him, unnoticed, and just as he was about to quicken his pace to get out of sight, placed his hand upon his shoulder, and his boot in his rear and booted him back into the car, compelling him to place the carpet bag where he had picked it up, and then booted him out of the car again. Mr. K. is a resident of Milwaukee, and the would-be thief, whose name we have forgotten, resides in Monroe.

**INSPECTS PLANTS OF PACKERS.**  
British Army Officer Methods of Preparing Beef for Army.

London, Sept. 12.—Lieut. Col. Percy Eyra Hobbs, who was selected by War Secretary Haldane to go to the United States and inspect the packing of beef intended for the British army, has returned to this country.

It is understood that he will in a few days present a voluminous report, the gist of which is that while the accusations that unsound meat is packed is generally unfounded, the sanitary conditions at most of the stockyards have been unsatisfactory.

The report will condemn methods in vogue and make suggestions which, Col. Hobbs believes, could be carried out without serious difficulty and the adoption of which would remove the objections to the present method of packing.

## Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Of all the diseases known, with which women are afflicted, chronic kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives. I have been fully aware of this, Lydia E. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for women's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the female organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing-down pains, itching or burning sensations or deposits in the urine, unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back, running through the groin, she may infer that her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham: I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. I have been a great sufferer with kidney trouble, and for twenty-five years since her advice has been freely given to me. One of the greatest pains of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Mrs. J. W. Lang, of 226 Third Avenue, New York, writes:

## CUBAN SITUATION CAUSES ACTIVITY

UNITED STATES PREPARES FOR  
EMERGENCIES.

CRUISER IN EASY REACH

Des Moines Sent to Key West, Whence  
It May Proceed to Havana to Act  
as Haven of Refuge for Amer-  
icans if Necessary.

Washington, Sept. 12.—The critical situation in Cuba is absorbing the attention of the administration to the exclusion of all other foreign topics, as indicated by the activity of the officials in the state, navy and war departments.

The president, at Oyster Bay, is keeping in close touch with every development of the revolutionary movement in Cuba, and is in constant communication by wire with the officials here, who, indeed, are even in receipt of detailed instructions from him as to what they shall do.

The prime object of the administration at present is to get at the facts, which is no easy task, in view of the mass of indefinite statements that emanated from various quarters. Particularly it is desired to know the precise strength of the revolutionary sentiment in Cuba, and the relative powers of the government and the insurgents there.

Keep in Close Touch.  
Mr. Morgan, the American minister to Havana, is understood to be hastening from Europe, where he has been on vacation, to the Cuban capital, and meanwhile Mr. Sleeper, the secretary of the American legation at Havana, who is acting as charge, is supplying the state department with a daily bulletin containing such facts as he is able to gather there. It is realized, however, that Mr. Sleeper is bound to accept the official rendition of the daily collisions between President Palma's troops and the insurgents in the field. He has no means of securing the rebels' statements of these same occurrences, and in the view of officials here, there is good reason to believe that the whole truth is not disclosed by either side.

Will Act with Caution.  
So, as stated Tuesday officially, it is the purpose of the administration to proceed with great deliberation in dealing with the Cuban question, and it was said on the highest authority that there would be no intervention by the United States unless the rebellion assumed the proportions of a general conflagration.

It was further stated that there had been no application for intervention from any authorized party, which

statement answered an inquiry as to whether any of the foreign governments whose citizens' interests were suffering from the depredations of the Cuban insurgents had called upon the United States government to step in and preserve the peace.

Another interesting statement from official sources was to the effect that careful inquiry had satisfied the administration that none of the American capitalists interested in Cuban institutions and properties had expressed a desire for the intervention of this government under the terms of the Platt amendment.

Adverse to Intervention.  
On the contrary, it was stated these people seemed adverse to any such action, figuring that it would precipitate the destruction of their properties during the long guerrilla warfare that might be expected to follow the landing of American troops in Cuba. They realized that if they were paid for the property so destroyed (about which it is pointed out there is no certainty), many international lawyers holding that a government is not responsible for losses caused by rebels, it might be a matter of ten or more years before any adjustment could be had, so they preferred peace under present conditions.

The development of the day was the admission that the American cruiser Des Moines, which sailed Monday hastily from Norfolk, had gone southward to Key West, with the ultimate purpose of proceeding to Havana if developments within the next two days seem to warrant such action. At Key West, the Des Moines will be about eight hours' run from Havana, and while waiting Commander Halsey will be in close communication with the navy department, prepared immediately to carry out any request from the department of state.

There is no intention in this movement of the Des Moines toward partiality toward one side or the other in the present conflict in Cuba. The ship will be at Havana to serve as an asylum in case of need and be at the disposition of the American charge. She is not a formidable craft, being only 3,100 tons displacement, and with a main battery of six-inch guns, but for the duty intended she will be quite as effective as a battleship. If the navy is making ready in other respects for contingencies in Cuba the fact is carefully concealed at the department, but it is known that the ambition of the general board is to keep the ships in a state of preparedness, and it is believed there will be no difficulty in dispatching almost immediately from the home ports any naval force that might be required in Cuba.

For its part, the army is prepared to answer any call, though there are absolutely no orders yet from the president or secretary of war.

It Is Shorter.  
Is the modern slang "skidoo" any improvement on the old slang "skaddoo"?—Louisville Courier Journal.

## HEAVY FIGHTING LIKELY IN CUBA

STAND OF GOVERNMENT TO PRE-  
CIPITATE MATTERS.

FEAR ATTACK ON HAVANA

Rumors from Various Sources Tell of  
New Uprisings, Bringing Terror to  
Hearts of Residents of the  
Capital.

Havana, Sept. 12.—So far as war developments went Tuesday was one of the quietest since the outbreak of the insurrection, but the public interest was deeper and discussion more animated, and earnest than on any preceding day.

The government's outright declaration that the war will be prosecuted to a finish was everywhere the sole topic of conversation.

That fighting of a far more desperate character will result as soon as the news shall have spread throughout the provinces is not doubted in any quarter.

The fear of an attack by the insurgents on Havana is spreading, and there are rumors more or less authentic from all directions of new uprisings in various quarters.

Show of Strength.  
Monday afternoon the government forces in Havana paraded through the principal streets and were greeted with some enthusiasm. The parade which was headed by the fine artillery band, consisted of 400 mounted rural guards, clad in the regulation khaki uniform of that organization, 200 mounted city militia, 600 infantry, rural guards and volunteers, and a city militia company of artillery with two machine gun batteries. The parade was reviewed by President Palma at the palace.

Defense of Havana.  
Particular plans have been prepared for the defense of the outskirts of the city. The American captain, Reno's rapid fire battery keeps a nightly vigil at La Fuerza castle, in front of the palace, prepared to sweep the Place de Arms park, fronting on the palace, in the event of any surprises in that quarter.

Doubt Nerve of Insurgents.  
The water works at Vento Springs and other outlying exposed points are being guarded with increasing vigilance. It is not generally believed that there is sufficient insurgent force near Havana at present to attempt to enter the capital, and many doubt whether the insurgents will have sufficient nerve in any event to attempt to traverse the long distance from the suburbs to the palace, with the certainty of death to many of the attacking force on the way.

Interested in American Ships.  
The news that the United States is sending one or more warships to Cuba is exciting great interest here. Some at first were inclined to jump at the conclusion that the United States was about to take a hand at enforcing peace, but later the opinion became general that the act had not necessarily a larger significance than would attach to the sending of ships to South American republics under similar conditions. There is a general belief, however, that if marines are landed to protect American property, and persons, they will not be likely to be withdrawn until peace is thoroughly established with a guarantee of its continuance.

Members of the cabinet and other government officials declared that they were not specially concerned, as the administration had nothing to fear from the United States which had always shown Cuba every friendship. All seemed to regard the sending of a warship as only the usual precautionary measure wherever special disorders existed. Members of the cabinet were of the opinion that the United States did not feel justified to do anything in Cuba more than it would do under similar circumstances elsewhere.

Clark County is the oldest settled up County in central Wisconsin. Its grain grass and vegetable yield per acre, is one-half more than the average in southern Wisconsin and fair crops of corn are now being raised. It ships more live stock than any county in central Wisconsin. The soil is clay loam with clay subsoil. Some of the best farmers from Rock, Jefferson and adjoining counties own and operate fine farms in Clark County.

The only improved farms for sale are owned by men who wish to retire. These farms are among the best in Wisconsin.

Parties who wish to see these lands can leave Janesville at midnight and arrive in Greenwood in time for breakfast the next morning.
